

SHRAVANYA ANDHALE

IT Engineering Student

+91 9653345310 • shravanya178@gmail.com • GitHub: Shravanya178 • Mumbai, India

Experience

Zemo Sports

Apr 2025 – Oct 2025

AI Intern

- Collaborated with the AI team to design and develop intelligent features for sports analytics applications.
- Assisted in creating and testing machine learning models for analyzing video-based sports data.

Palcoa Ltd.

Nov 2024 – Apr 2025

Web Development Intern

- Designed and maintained a salon management website with user authentication and appointment scheduling.
- Collaborated with cross-functional teams to ensure responsive design and optimize performance across devices.

QuestIT, VESIT

Aug 2024 – Present

Technical Officer

- Planned and executed hands-on technical workshops for peers on web development and GitHub workflows.

Utkarsh Global Foundation

Mar 2025 – Present

Volunteer

- Volunteered in three key community initiatives: Rabies Awareness for Stray Dogs, Support for Underprivileged Children, and Health & Hygiene Awareness Campaigns.

Education

Vivekanand Education Society's Institute of Technology (VESIT)

Bachelor of Engineering in Information Technology

Aug 2023 – May 2027

Semester SGPI: Sem 1–9.91 | Sem 2–9.86 | Sem 3–10 | Sem 4 – 10 | Sem 5 – 10

Poddar Brio International School

Higher Secondary Certificate (HSC) – 93.6%

2021 – 2023

Key Achievements

Winner- Nexothon 2025	GCET Gujarat
2nd place- Hackcelestial 2.0	Pillai College of Engineering
4th place- Craftverse 2025	PCCOER PUNE
Finalist – HackOrbit 2025	Madhav Institute of Technology
Top 10 – Dev with AI	Bharati Vidyapeeth

Projects

- **KisaanVaani**-Voice first, Hindi AI assistant for farmers with yield prediction and disease detection
- **ResQLink**- Unified, Offline first App for Disaster Relief with Voice RAG Agent, OCR, BLE Mesh network.
- **Cyclone Simulator** – Simulated tropical cyclone patterns with real-time visualization using React.js and Firebase.
- **Elderly Healthcare Web App** – Medication scheduling and alert platform with multilingual support and caregiver integration.
- **Interview Simulator** – AI-powered mock interview tool using React, Express, and Firebase to simulate real interview environments.
- **Socio Suraag** - OSINT-based Drug Trafficking Detection System, Developed an OSINT-driven system to analyze social media signals and identify potential drug trafficking networks through structured data aggregation.
- **Reclaim** - AI-powered Laboratory Waste Management Platform, Built a computer vision-based mobile application to identify laboratory waste and enable sustainable disposal workflows with resource-sharing features.

Skills

Languages & Technologies: Python, Java, C, JavaScript, SQL, MERN Stack, React.js, Express.js, Firebase, Tailwind CSS, Jenkins, GitHub, Docker, Supabase, n8n, flutter, React Native

Core Areas: Full-Stack Development, Web Development, Database Management, AI Integration, Automation, Cloud Computing, DevOps (CI/CD)

Soft Skills: Communication, Team Collaboration, Leadership, Problem Solving, Time Management, Adaptability, Organization, Critical Thinking
